8	Point no E	Regarding 2024-2025 We will give Provisional Report from CA. Please Confirm	Please refer to the extant provisions of the RFP. ✓
12	Configurations	kindly provide clarification on the following:1. Active Directory (AD) Installation Please specify: - Nature of AD deployment: greenfield or part of existing infrastructure - Number of users, computers, and expected organizational structure - Site topology: number of locations and domain controllers per site - Forest/domain design, DNS integration, and security policy expectations - Preferred OS versions, hardware specs, and replication strategy 2. WSUS Configuration Please elaborate on: - Whether WSUS is already operational or planned as a new deployment - Expected number of client machines and server architecture - Synchronization and patch approval strategy - Usage of GPOs for WSUS client settings and reporting requirements - Maintenance procedures for update cleanup and database health 3. Operational Responsibilities - Who will own and manage GPOs and WSUS after implementation? - Expectations around change control and testing environments - Backup, recovery, and monitoring tools involved	Existing AD & WSUS Configuration need to be implemented on new servers. For OS specifications, kindly refer to the RFP. ✓ We have requirement only for one location. Remaining relevant details will be shared with the successful bidder.
