

CORRIGENDUM NO: 01 TO TENDER REF. NO: NABFINS/RFP/004/2026-27

FOR THE PROCUREMENT OF SIEM SOLUTION (ON-CLOUD)

Sl. No	Clause/Page. No	Description	Existing Particulars	Shall be considered as under
01	Clause: 10.8 Page. No: 71	Commercial Evaluation Process	Bidder (L1) quoting the lowest bid will be selected on the basis of Total Price post commercial bid evaluation.	The Bidder Selection will be based on Final Quality-cum-Cost Based Selection (QCBS) Evaluation where Technical Proposal and Financial Proposal that shall be 0.70 and 0.30, respectively.
02	Clause: 6.1, point m Page. No: 18	Detailed Scope of work	Bidder shall store all logs for a minimum period of one year. Preferably, logs for 1–2 months shall remain online, after which they may be moved to archival storage. In line with NABFINS's requirements, these logs must be capable of being downloaded. The bidder shall provide the stored logs to NABFINS within one day's notice, at no additional cost. NABFINS reserves the right to request logs for any time duration within the storage period or by applying specific filters.	The Bidder shall retain all logs for a minimum period of one year. Logs for 1–2 months shall remain online and thereafter be moved to archival storage. After completion of 365 days, archived logs may be deleted/transferred only with prior written confirmation from NABFINS. The logs shall be downloadable, and the Bidder shall provide the requested logs to NABFINS within one day's notice, at no additional cost and those logs Recommended formats are CSV, CEF, or JSON. The bidder may choose the appropriate log format; however, the logs must be provided in a readable/usable format. If the logs are not directly readable/usable, the vendor shall provide a suitable tool for NABFINS to review and analyze the logs. NABFINS may request logs for any period within the retention window and/or based on specific filters.
03	Appendix-1A-C. Log Processing: SIEM-Functional SIEM_025"	Log Retention	Minimum 365-Day Online Log Retention	The Bidder shall retain all logs for a minimum period of one year. Logs for 1–2 months shall remain online and thereafter be moved to archival storage. After completion of 365 days, archived logs may be deleted/transferred only with prior written confirmation from NABFINS.

04	Appendix 1B TABLE A: Specifications /Features S.No. 78	Database hosting	The application and DB is/will be hosted separately on a dedicated instance for NABFINS. Evidence of dedicated instance for NABFINS should be submitted.	The SIEM application and database shall be hosted on separate logically isolated or dedicated instances for NABFINS. The Bidder shall provide appropriate architectural and technical evidence demonstrating such isolation.
05	Appendix 1B TABLE A: Specifications /Features TABLE B: Technical compliance Section: ss	Database hosting	Shared database services should not be used, database, clusters and all other resources must be setup separately for NABFINS.	Shared database services shall not be used. The database, clusters, and all associated resources shall be logically isolated or deployed on dedicated instances exclusively for NABFINS.
06	Appendix 1A N. Operations: SIEM_118	Threat Hunting Query Support	Threat Hunting Query Support (KQL/SPL/SQL-like Query Capability)	The proposed SIEM solution must have built-in threat-hunting query capabilities and support at least one of the following: KQL, SPL, SQL, YARA-like syntax, Lucene, AQL, Sigma, or an equivalent proprietary query language. The solution must also provide native correlation capabilities for advanced searching, filtering, aggregation, and correlation of events across multiple log sources.
07	Annexure 18	Log Sizing	Addition	350 EPS, 35 GB/ Day.
08	Clause 2: Key Information Page No: 6	Bid submission last date and time	26.08.2026 at 3:00 PM	07.09.2026 at 3:00 PM
09	Clause 2: Key Information Page No: 6	Eligibility cum Technical bid opening date and time	26.08.2026 at 3:30 PM	07.09.2026 at 4:00 PM
